<p>24. clear objectives</p> <p>25. Have a clear, coordinated vision.</p> <p>26. Long term planning to deliver major improvements over a longer period rather than to just axe them</p> <p>27. prioritising long term gains.</p> <p>28. Provide an inspiring vision for Moray such that communities will feel improved motivation to help deliver against all the priorities. The plan reads like a dull and uninspired and lifeless document. In particular, the economic partnership targets show little or no vision for improvements. Most services hang off economic improvements (i.e.. potential increased finances/budgets) therefore this appears to show little desire for improvements.</p> <p>29. think about the future</p>

Partner Response:
<ul style="list-style-type: none"> • All partners produce plans to set out how they intend to improve. As a collective the Community Planning Partnership did this in its 10 year plan Moray 2026. The government has specified a new approach to the way in which local public services should do improvement planning and in October 2017 the Community Planning Board aims to publish its first Local Outcome Improvement Plan for Moray.
